

Technology and Infrastructure Consulting

Our certified IT specialists help design, develop, implement, improve and support end-to-end solutions that help your organization better operate, respond, perform and serve.

SERVICES

- Application Development
- Application Maintenance and Support
- Enterprise Case Management (ECM)
- Enterprise Resource Planning (ERP)
- Infrastructure Assessment
- Infrastructure Managed Services
- Cloud Migration

OUR APPROACH

Technology-agnostic, project-specific.

We leverage industry standards, best practices and decades of expertise in collaborating with partners, clients, project teams and third-party vendors to provide the most reliable, sustainable and responsive infrastructure, applications, processes, services and solutions.

Applications we support

Microsoft
Dynamics 365

Microsoft 365

ORACLE
E-BUSINESS SUITE

Always on partnership

Answering the Call(s)

We provide Oracle ERP technology and infrastructure support that enables one of the largest county governments and the second most populous county in the U.S. to streamline its help desk services.

The upgrade has led the department to increase the timeliness and efficiency of its responses to **more than 300 assistance requests per day from seven county departments, 800 local governments, and 5.2 million residents.**
